

HOLBECK RISE LATEST NEWS

LAUNCH OF TWO DORMER BUNGALOWS

12 November 2012

We have just launched two Dormer Bungalows.

These are 3 bedroom with integral garage, there is also the option to change the internal floor plan on one plot in order to have a detached garage. At the moment we have laid the bases and will continue to build over the coming winter months.

There has been a great response from people registering their interest and we hope to have them ready to view late spring/early summer. Plans and information are available from the show house on Holbeck Park Ave.

Sales have exceeded expectation and we now only have 1 three bed for sale, and 1 four/five bed from our last release.

There are another 4 three bed town houses under construction to keep up with demand but buyers could be waiting for at least 9 months before we have another 4/5 bed once the current property is sold.
